BIRTHS AND DEATHS
IN KENTUCKYFor the Year's 1911-12—A Steady
Decrease Shown in Prev-
alent Diseases

TUBERCULOSIS CLAIMS 9,909

The birth returns for 1911 number-
ed 60,732 and for 1912, 61,199. These
will be increased by some delayed
reports. The deaths for 1911 num-
bered 30,583 and for 1912, 29,648. The
deaths from consumption (Tubercu-
losis) for 1911 were 6181 and for 1912,
4728, a substantial decrease. Ty-
phoid Fever, likewise, showed a re-
duction in prevalence and fatality,
being 1035 in 1911 and 758 in 1912.
Diphtheria showed a slight gain, be-
ing 545 in 1911 and 687 in 1912.

The following shows the number
of deaths from other prevalent
diseases.

	1911	1912
Scarlet Fever	72	51
Whooping Cough	374	330
Measles	384	52
Pneumonia and Bron- cho-Pneumonia	2630	2147
Summer Complaint of Children	1124	922
Meningitis, all forms	630	607
Lagrippe	447	425
Child-bed Fever	161	132
Other Diarrhoeal Diseases	553	

Cancer shows an increase, 909 in
1911 and 943 in 1912. A bulletin con-
taining an article on this disease,
which is free from technical lan-
guage, may be obtained by request to
the State Board of Health, Bowling
Green.

Violence showed in 1911, 1526
deaths, and in 1912, 1719.

A remarkable fact of all these
deaths is that in 1911, 41 of every one
hundred deaths were caused by dis-
eases practically preventable. 1912
showed 39 per hundred dead of dis-
eases that can and ought to be pre-
vented.

The Federal Government accepts
these certificates from Kentucky as
complete, though the doctors in
many cases can prove their quality
by giving exact and scientific causes
of deaths.

The births would likewise be ac-
cepted were it not for the delinquency
on the part of some physicians and
midwives in Louisville, Paducah,
Owensboro, Covington and Lex-
ington. A systematic house-to-house
inspection for unreported births is
now being made and prosecutions
will be instituted to bring these up
to the standard of the rest of the
state, in which it is believed 95 per
cent of all births is being reported.

Baseball Bug

The warm days we have been hav-
ing have brought the baseball bug
out of his winter home and he is
busy as can be buzzing around the
various places of the city. There's
no reason why Earlinton cannot
have a good team the coming year.
Here in our little town there is ex-
cellent material for a good fast team
with the co-operation of the people
of our little city we could have a
winning team to the field. There is
no more enthusiastic bunch of root-
ers in existence than our people
when there's a good game in pro-
gress. With an early organization
and some good practice early in the
season we can have a good fast team
that will always prove a winner.
The boys are going to call a meeting
in the near future and get a move-
ment on foot to have an entirely
new equipment and be ready to fur-
nish some good fast games to our
people soon as the season opens.

CLEAN AND BEAUTIFY YOUR
HAIR—25 CENT "DANDERINE"

In a few moments your hair look soft,
fluffy, lustrous and abundant—No
falling hair or dandruff

Surely try a "Danderine Hair
Cleanse" if you wish to immedi-
ately double the beauty of your
hair. Just moisten a cloth with
Danderine and draw it carefully
through your hair, taking one
small strand at a time, this will
cleanse the hair of dust, dirt or
any excessive oil. In a few mo-
ments you will be amazed. Your
hair will be wavy, fluffy and
abundant and possess an incom-
parable softness, luster and luxu-
riance, the beauty and shimmer
of true hair health.

Besides beautifying the hair,
one application of Danderine dis-
solves every particle of Dandruff;
cleanses, purifies and invigorates
the scalp, forever stopping itch-
ing and falling hair.

Danderine is to the hair what
fresh showers of rain and sun-
shine are to vegetation. It goes
right to the roots, invigorates and
strengthens them. It's exhilarat-
ing, stimulating and life-produc-
ing properties cause the hair to
grow abundantly long, strong and
beautiful.

You can surely have pretty,
soft lustrous hair, and lots of it,
if you will just get a 25-cent bot-
tle of Knowlton's Danderine from
any drug store or toilet counter
and try it as directed.

Up-To-Date Wedding

The guests had arrived; the
preacher had taken on a solemn
look; the wedding cake had been
placed on the table, and everything
in readiness for the ceremony.

The bride-to-be was pale but beau-
tiful, and there was a wistful, eager
look in her great liquid eyes. She
nervously tapped one of her dainty
feet upon the floor, and ever and
anon she sighed a tremulous sigh.
The prospective groom stood at
the side of the woman he loved.
Ah, he, too, was beautiful! But it
needed no trained eye to discover
that he was impatient. His breath
came in quick, uneven gasps, and
he clasped and unclasped his hands
continuously.

Why did they wait? What mys-
terious spell was upon them and
holding them back? The guests
cast inquiring glances at one
another and occasionally shook
their heads. The preacher frowned;
the clock upon the mantle ticked
and ticked, and still they waited.

The situation was becoming em-
barrassing. The bride bit her lips,
and the groom seemed about to say
something, when suddenly the sound
of hurrying feet was heard. In an-
other second a breathless messenger
had burst into the room, with a
telegram announcing that the bride's
petition for divorce had just been
granted.

Clay City Marshal Found Dead On Road
Clay City, Feb. 20.—Marshal
T. A. Pettit was found dead on
the road about one mile North of
Clay City about 9:30 o'clock last
night. He had arrested Bert
Smothers, colored, who is said to
have been intoxicated, and with a
number of others had discharg-
ed pistols on the public highways
within the city limits. Pettit
and his deputies, Jesse Eaton
and Otis Mackey, arrested
Smothers, and after locking him
in the city jail under heavy
guard, went to arrest others.
Pettit had sent his deputies back
for ammunition and on their re-
turn they found the marshal
dead in the road.

Kentucky Kidnaping Charge Is Dropped

Clay, Ky., Feb. 19.—After an in-
vestigation by County Attorney
Bennett, charges were dropped
against Mr. Mabry and Mr. and Mrs.
Andrew Hale. They were detained
at Paducah and brought back here,
supposedly to be tried for kidnaping
Mabry's sister. It developed that
Mabry didn't want his sister to
marry a young man with whom she
had been keeping company and had
taken her to Paducah to get her
away from the man's influences.
The county attorney said that no
further proceedings would be had
in the matter.

"SATAN" At Idle Hour Theatre Satur-
day, February 22nd

Satan, or the Drama of Humanity,
coming to the Idle Hour Theatre.
It's a picture long to be remem-
bered. It stands out so bold and differ-
ent from others. It might be inter-
esting to know that the picture Sa-
tan cost upwards of \$200,000 to pro-
duce and took four months of con-
tinuous work to complete same. It
is played by the most noted Euro-
pean Artists, and was passed on by
the National Board of Censorship,
of New York City, which insures
that it is a picture suitable for every
man, woman and child. It teaches
a great lesson. The picture contains
more than a hundred beautiful
scenes in tour big acts and 6 reels,
taking almost two hours to show.
The first act is made and the first
drop of blood shed is caused by Cain
with the weapon. His victim being
Abel, the story unfolds showing
the work of Satan in all ages up to
and including our present time. A
picture that will make you think
and look longer in your memory. It
will be here one day only Saturday
February 22.

Buying High And Selling Low

How the laboratory helps
recently been shown in answering
the question for farmers as to
whether it was wise to sell cotton-
seed meal at \$25 to \$30 a ton and buy
timothy hay at from \$20 to \$25 a ton.
The best thing in feedstuffs is
nitrogen. Who would get the better
of the bargain appears clearly
enough when the laboratory tells a
farmer that a ton of timothy hay
has 20 pounds of nitrogen, while a
ton of cotton seed has 132 pounds.
Just such knowledge as this has
changed the value of cotton seed
from a thing to be dumped into the
streams to a by-product that is worth
\$100,000,000 a year.

School Entertainment Postponed

On account of the illness of sev-
eral pupils, it became necessary to
postpone the entertainment for a
few days. See hand bills in a day

A Country Editor's Duties

Senator H. B. Ferrell, editor of the
West (Tex.) News, briefly sums up
the duties of the country editor, and
those not familiar with a country
print shop might peruse with inter-
est the total: "To run a newspaper
at a follow has to do is to be able to
write poems, discuss the tariff and
money questions, umpire a baseball
game, report a wedding, saw wood,
describe a fire so that the readers
will shed their wraps, make \$1.00 do
the work of \$10, shine at a dance,
measure calico, abuse the liquor ha-
bit, test whiskey, subscribe to char-
ity, go without meals, attack free
silver, wear diamonds, invent ad-
vertisements, sneer at snobbery,
overlook scandal, apprise babies, de-
light pumpkin raisers, minister to
the afflicted, heal the disgruntled,
fight to a finish, set type, mold
opinions, sweep out the office, speak
at prayer meetings and stand in
with everybody and everything."

"Three Twins" will be the offering
at the Garrick Saturday February
22nd and is said to be one of the
smartest musical comedies that has
been produced in many years. The
book is by Charles Dickson, lyrics
by O. A. Hauerbach, while Karl
Hoseban is responsible for the music.

"Three Twins" is one of the large-
est musical companies on the road
requiring two baggage cars and
three coaches for the transportation
of the company. One of the many
novelties is an electrical aerial
swing weighing over 5,000 pounds
and illuminated with over 2,000
incandescent lamps. The company
carries three machinists, something
that has never been done before for
the handling of this one effect.
During its long run in New York,
"Three Twins" was indorsed by the
entire New York press. Mr. Ashton
Stevens of the New York Journal
said: "Three Twins" is a credit to
Broadway."

There are a great many song hits,
including "The Yama Yama Man,"
"Cuddle Up A Little Closer," "Boo
Hoo Tee Hee," They are All My
Girls" and "The Little Girl Up
There."

When Is A Man Dead?

Dr. Alexis Carrel, of the Rocke-
feller Institute for Medical Research,
has startled the medical world by
transferring a cat's heart, stomach
and kidneys to his laboratory, and
keeping them alive for 104 days. At
last report, the heart was still beat-
ing, the stomach digesting and the
kidneys performing their functions
as well as ever. If this may be
done with a cat's organs, why not
with a man's? If an' when would it
be proper to consider the man dead?
What is a man, anyway?

Thomas A. Edison says, "A man's
intelligence is the aggregate intelli-
gence of the innumerable cells which
form him, just as the intelligence of
a community is the aggregate intel-
ligence of the men and women who
constitute it. If you cut your hand
it bleeds, thus you lose cells. That
is as if a city had lost some of its
inhabitants."

Mr. Edison's terms seem appro-
priate. Human skill is related to
human intelligence. The man who
has lost his hands has less intelli-
gence, less opportunity and less
skill than previously. A whole
village of people devoid of the senses
of hearing, taste, smell and touch
would be a very unintelligent com-
munity. If one loses a few drops of
blood it makes no perceptible im-
pression upon his intelligence; if he
loses a quart, faintness, stupor may
be expected. This proves that the
loss of even a few drops is REALLY
a loss of vital power and hence of
intelligence in some degree.

The Scriptural definition of man
is found in Genesis 2:7. "The Lord
God formed man (all of his innum-
erable cells) of the dust of the
ground, and breathed into his
nostrils the breath of life (Heb.
calvah, lives—the same kind of
breath that sustains the lives of all
other breathing creatures) and (as a
result of this union of properly form-
ed cells, with the animating prin-
ciple or power or "spirit" of lives)
man became (it does not say man
received) a living soul (Nepheesh,
sentiment being—the same word
rendered "Living creature" in
Genesis 1:24). It follows, logically,
that a man is not dead, i. e., the
soul is not dead (Ezekiel 18:4, 20;
Isaiah 58:10, 12) until the last cell of
the man has ceased to be animated.
The period from thence to his
resurrection is figuratively styled
sleep. Daniel 12:2.

The Wandering Jew

C. J. Woodworth.

Let me but do my work from day to
day.
In field or forest, at the desk or
loom
In roaring market place or tran-
quil room;
Let me but find it in my heart to say,
When vagrant wishes beckon me
astray,
"This is my work; my blessing,
not my doom;
Of all who live, I am the one by
whom
This work can best be done, in the
right way."
—Henry Van Dyke.

ORDER RESTORED
IN MEXICO

Quiet Prevails And Police Re-
sume Their Duties As Here-
tofore

AMERICAN RELIEF COM-
MITTEE AT WORK

Washington, Feb. 20.—Rapidly the
Mexican capital is returning to
normal conditions, according to
Ambassador Wilson's reports receiv-
ed at the state department today.
Quiet prevails and the police resum-
ed their duties and it is possible
now to remit money through the
banks from America to persons in
need in Mexico.

Whether quiet conditions will
continue is conjectural. The general
opinion is that the rebel leaders in
the North will refuse to recognize
the new government and have to be
subdued, unless officers are given
them as an inducement to quit. It
is presumed that Zapata and his forces
will continue their guerrilla warfare.
Yesterday General Huerta inform-
ed Ambassador Wilson that Gustavo
Madero had been killed without
orders by soldiers. It was stated,
however, that he had joined Presi-
dent Madero in an attempt to
assassinate him (Huerta.)

The disturbing cloud is the action
of congress on the state of Coahuila
in refusing on constitutional grounds
to recognize the authority of Huerta.
They are preparing armed resistance
and are appealing to other states for
support.

Although quiet prevails by day the
ambassador reports many looters
abroad by night. The American em-
bassy relief committee is actively re-
lieving sufferers among the sick,
wounded and destitute.

Consuls report anti-American feel-
ing subsiding in the states where the
circulation of false statements con-
cerning plans of the United States
has aroused enmity. The populace in
Ciudad Porfirio Diaz appears indif-
ferent over the results of Mexico
City. Saltillo is quieted. News of the
change was received with great joy
in Durango, where the governor and
federal commander assured Consul
Hamm they would accept the Huerta
government.

Federal and local officials in Vera
Cruz promised Consul Canada that
order will be maintained. Consul Ed-
ward says Ciudad Juarez is quiet and
that the news from the national cap-
ital was received with little surprise.
He said nothing had been heard from
the rebels in the outlying districts
whose actions might make the future
problematic.

Resolutions for an Editor

Under the above caption appears
in a current issue of Collier's Week-
ly an editorial that appeals to any
real newspaper man with the cou-
rage of his convictions, or versed in
the altruism of his profession. Col-
lier's has done several good things
and many bad things, but we are
not inclined to believe there is any
hypocrisy in this declaration of
faith, to which we refer says the
Paducah News-Democrat:

"To be humbled by the responsi-
bility rather than exalted by the
power of the printed word.

To seek the truth, diligently and
write it simply.

"To hold the pen to strict account
for intemperance and exaggeration.

"To judge no man nor speak ill of
him unless by so doing comes great-
er good.

"To speak plainly about public
evils without fear.

"To keep an open heart for the
needs of those who toll, and an ear
ready to the cry of the unfortunate.

"To visit scorn upon those whose
power or wealth is earned by the
oppression of the poor.

"To expose scheming and hypo-
crisy, in high places.

"To accept fair criticism with
candor and misunderstanding with
a smile.

"To abate no jot of his convictions
whether to reader or to advertiser
for money's sake.

"To picture the world as God made
it darkened occasionally by war and
passion, but brightening from year
to year as man deals more justly
with his brother and sees more fre-
quent and less broken glimpses of
the divine plan.

Children Should Have Good Light for Studying

A poor light strains the eyes, and the injurious effects may last for life. An oil lamp is best. The light from the Rayo Lamp is soft and mellow. You can read or work under it for hours without hurting your eyes.

The RAYO is constructed scientifically. It is the best lamp made—yet inexpensive and economical.

The **Rayo** Lamp, made of solid brass—nickel plated. Lighted without removing chimney or shade. Easy to clean and rewick. Made in various styles and for all purposes.

Changing Nature Indirectly.
You are constantly assured that you cannot change human nature; that you cannot make people over by process of law. But if you cannot reform men by reforming the conditions that make men what they are, how is it that you can so easily debauch and degrade them by reversing the process?—Collier's Weekly.

Cause of Fall of Bullet.

HEADACHY, BILIOUS, UPSET? "CASCARETS"

It's your inactive liver and bowels—You need Cascarets sure

You're bilious, you have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and intestines can be quickly cured by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet and your head clear for months. Children love to take Cascarets, because they taste good and never gripe or sicken.

Keeping the Body in Repair

Nature intended that the body should do its own repairing—and it would do so were it not for the fact that most of us live other than a natural life.

Nature didn't intend that we should wear corsets, tight collars or shoes, nor live in badly ventilated and draughty houses, nor eat and drink some of the things that we do, nor ride in street cars when we should walk.

The consequence is that the body when it gets out of order must look for outside help to make the necessary repairs.

For weak stomachs and the indigestion or dyspepsia resulting, and the multitude of diseases following therefrom, no medicine can be more adaptable as a curative agent than **DR. PIERCE'S GOLDEN MEDICAL DISCOVERY.**

This famous Doctor's prescription has been recommended for over 40 years, and is today just as big a success. Restores a healthy appetite. Cleanses the blood. Strengthens the nerves. Regulates stomach and liver. Demand the original.

Worth Knowing.

Never throw away pieces of lemon after they have been squeezed with the lemon squeezer, for they come in handy for removing stains from the hands and elsewhere. Dipped into salt they will scour copper kettles nicely and remove stains from brasswork. Lemon like this will take stains, dirt and odor from pans and kettles as nothing else will. The odors of fish and onions can thus be easily removed.

Here is a message of hope and good cheer from Mrs. C. J. Martin, Boone Mill, Va., who is the mother of eighteen children. Mrs. Martin was cured of stomach trouble and constipation by Chamberlain's Tablets after five years of suffering and now recommends them to the public. Sold by All Dealers.
